5-oxoprolinase (ATP-hydrolyzing) (EC 3.5.2.9) - rat
N,Alternate names: pyroglutamase (ATP-hydrolyzing)
C:Species: Rattus norvegicus (Norway rat)
C:Date: 11-Jan-2000 #sequence_revision 11-Jan-2000 #text_change 11-May-2000
C:Accession: T42756
R:Ye, G.J.; Breslow, E.; Melster, A.
J. Biol. Chem. 271, 32293-32300, 1996
A;Title: The amino acid sequence of rat kidney 5-oxo-L-prolinase determined A;Accession: T42756
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              A;Status: preliminary; translated from GB/EMBL/DDBJ

TISSUE SPECIFICITY: PREDOMINANTLY EXPRESSED IN BRAIN, PARTIC IN THE CEREBRAL CORTEX POSTSYNAPTIC DENSITY.

PTM: N- AND O-GLYCOSYLATED.

SIMILARITY: BETOMOG T-
